Istruzioni per l'applicazione delle decalcomanie. Ritagliare le decalcomanie occorrenti dal foglio, immergerle in un bicchiere di acqua pulita e circa 20°, lasciarle in posizione sul modello e farle aderire dalla carta; per una maggiore aderenza comprimerle con una pezzuola pulita.

Direction for applying the decals: cut the required decals out of the sheet; dip them into a glass of clean water for about 20°, position the decals on the kit, letting them slide from the paper. For a better adhesion, press them by means of a clean rag.

Översättning av decaler: klipp ut den decal som skall användas och doppa den i ett glas vatten under en 20°. Sätt decalen på plats på modellen och låt den sakta glida av pappret. För att den skall sätta ordentligt, tryck till med en torr filt.

Anweisungen für Abziehbilder Anbringung: Die benötigten Abziehbilder vom Blatt abschneiden, in ein Glas mit Wasser für etwa 20° eintauchen, auf das Modell legen und dann vom Papier gleiten lassen. Um eine bessere Haftung zu erzielen die Abziehbilder mit einem reinen Tuch andrücken.

Instruction pour l'application des décalcomanies. Couper les décalcomanies choisies et les plonger environ 20° dans un pot d'eau propre. Les placer sur le modèle en les faisant glisser de leur feuille et presser avec un morceau de chiffon pour éliminer les bulles d'air.

Instrucciones Para la aplicación de las calcomanías: cortar las requeridas, sumergirlas en un recipiente de agua limpia durante 20°, colocar las calcomanías sobre el modelo, haciéndolas deslizar sobre el papel. Para una mejor adherencia, presionarlas con un trapo limpio.

Transfers: knip het benodigde deel uit, dempil en ca. 20° onder water, oudt het transfer tegen het model en schuif het vanaf het papier op zijn plaats. Met een schoon doekje aandrukken.

オーバーレイの貼り方： 貼る場所に、キャラクタのデータを貼り付けます。 ぬるま湯(20度)につけ、もうかげます。 フィルタで水をくすらせておきます。 無理に力をこめず、やわらかなくてデータが剥がれて、裏面を傷つけてしまうので、データは、やわらかくする事をお勧めします。

Указания по применению декалей: Определяя нужную вам часть декала от общего листа, вымачивайте ее на 20° минут в чистую воду, затем, вынимая небольшими движениями, переносите ее на модель, не прикладывая к ней излишней силы. Для лучшего прилегания декалей, слегка сдавите их чистой тряпочкой.
